

7 reasons to switch to **cloud accounting-now**

1. Get up to speed

It takes a while to get used to a new process. Invest some time now to familiarise yourself with software such as QuickBooks, Xero or Free Agent, and it will be second nature by the time MTD come around in April 2019.

2. Work with your accountant in real time

It's much easier for your accountant to give good advice if they have the right figures in front of them. With cloud accounting software both of you can see all of your transactions as and when they happen instead of working with out-of-date information.

3. Have access from anywhere

We're all used to working on the go, but it's easy (and incredibly frustrating) to forget one key piece of information.

With cloud accounting software you can run reports, send an invoice or manage payroll from any location, on any device.

4. Sync and save time

Connect to your business bank account and cut back on endless data entry. It's more accurate than the manual process, too.

5. Know what you're owed

Find it hard to keep track of who's paid you what? Access your invoices on the go and use the tracking function to see who's received, opened or paid their bills.

6. Automate your reporting

Get a clear picture of your business performance any time by running instant reports on the real-time data stored in the cloud. Run Profit and Loss, Balance Sheets, Monthly Cash Flow and more.

7. Tap into professional expertise

Automated software lets your accountant to offer greater value. Instead of checking for manual errors, they can offer more advice and the benefit of their professional experience to help your business shine.
